SERVICES

- Feasibility Assessment
- Environmental Analysis
- Master Planning
- Site Design
- Subdivision/Land Development
- Public Approval Process
- Construction Management

SUMMARY/RESULTS

The project consists of a variety of housing types and densities and combines the residential uses with commercial, public and quasi-public uses. The site design includes Traditional Neighborhood Design features available under current planning including alley access to private parking and garages. Brighton is the first design in Lancaster County to incorporate these "Livable Community" features. The above photograph depicts Brighton's Town Center, which serves as the hub for the development.
